Chaz,

I noted your request for info re: the CCBC fisting parties. Well, I have never been, so no info there, but Palm Springs is daddy fisting paradise; given that the resident population consists of porn stars or retired guys, both of whom have time a plenty to play, while the transient population consists of guys looking to play. You will have fun, I'm quite sure.

As for circumcision I am absolutely, totally, completely fascinated by the practice. The number one question I have in my mind about a man is if he is circumcised, and if so, when (adult circ? YES!) and if known, with what instrument. I have spent untold hours reading about it in every possible journal, blog, religious rant, pro-rant-anti-rant and even more hours watching videos of the procedure from Atlanta to Zululand. It turns my crank. Your photos of your circ were a knock out.

I am uncut, but have for years imagined going through the experience. In the meantime I spend way too much time stretching, pinching, pulling on my foreskin. Some years ago I had my frenulum pierced by a MD friend of mine as a part of a larger medical scene. Now I want to have the bridge which tops the hole severed. All of it being a kind of a bit by bit circumcision. I will be in Washington DC during MAL staying at the Courtyard Hotel from Jan 14 -18. I'm there for the fisting, not the beauty pageant. Following MAL I will be in NYC from Jan 18 until Jan 26 when I return to San Francisco. I'm Very much interested in meeting you as I think that you could help move this whole process along, and have some fun doing so. I can be texted/telephoned at 415 867-6025. I can also be found on asspig as fistholesf, on [bearwww.com](http://bearwww.com) as fistbearsf.

I've enclosed some photos of myself and my stuff.

Chaz,

Let me be the first to wish you a happy Feast of the Circumcision.

And on that note the 3.5 cm gomco clamp arrived leaving me to wonder if there is such a thing as Gomco Seconds and irregulars or if there are guys out there with dick heads wider than they are long.

As you can see from the attached smut, the bell is not even close to the glans, let alone reaching to corona. This will never do! How am I gong to achieve a red, raised perfect circle to mark the spot (a tattoo with "cut on dotted line" ?) ?The question is should I blow another \$15.00 on something equally crappy---answer: probably yes. The last time ---years and years ago--that I had a clamp biting down I came in the bell...splatch!

I glad to hear you're up for a meating. I'm super eager to check out your tight cut. Whenever I'm in Europe, I seem to become a bit of a Muslim magnet. They all seem to have tight circs, Unlike the typical "just like all the other boys" American guys, Muslim LOVE to talk about their circumcisions. Which, for the most part, they remember.

While in NYC I'll be staying at the Radison Martinique on 32nd, 2 blocks from Penn Station. Thus far my dance card is very open and flexible. When is good for you?
